

2018 Super K Sponsorship Opportunity

What is Super K-Transition to Kindergarten?

All children entering Kindergarten each fall are eligible to participate in this free, 8-day program, but Super K is especially designed for those children who are feeling some anxiety about starting school and just need a little more preparation.

Super K exposes students to many of the routines, activities, materials, and skills that they will experience in Kindergarten. Students work to become super friends, super listeners, super organizers, and super problem solvers as they become familiar with the backpack routine, lunch tray procedures, opening milk cartons, and saying "goodbye" to families at the door. Each student receives a free backpack, school supplies, and daily snacks.

The program takes place in two communities in 2018: Ames and Nevada. In 2017, 43 children participated in the program over the summer at Edwards Elementary in Ames and Central Elementary in Nevada.

Super K Sponsorship

By sponsoring this program with a gift of \$3000, [YOUR BUSINESS OR ORGANIZATION] will be providing program support for the Super K program, purchasing school bags and school supplies for each student, purchasing materials appropriate for a kindergarten classroom, program materials and snacks, and providing new quality children's books for each child in the program

A label is placed on the back of each book with the sponsor's name or business logo and the sponsors are listed on the Raising Readers in Story County website's Super K program page and donor page, annual report and through press associated with the Super K program.

For sponsorship information and other opportunities, please contact Kim Hanna, Executive Director at director@raising-readers.org or 515-520-8686.
